9. more file 10. head file 11. tail file 12. tail -f file 13. touch file 14. rm file 15. rm -r dir 16. rm -f file 17. rm -rf dir 18. cp file1 file2 19. cp -r dir1 dir2 Output the contents of the file Output the last 10 lines of the file Output the contents of file as it grows, start the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the last 10 lines of the file Output the file as it grows, start the last 10 lines Output the file as it grows, start the last 10 lines Output the file as it grows, start the last 10 lines of file as it grows, start the last 10 lines Output the file output the file as it grows, start the last 10 lines of file as it grows, start the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the file Output the first 10 lines of the file Output the file Output the first 10 lines of the file Output the file Output the file Output the last 10 lines of the file Output the last 10 lines of the file Output the last 10 lines of the file Output the contents of file as it grows, start the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the file Output the last 10 lines of the file Output the last 10 lines Output the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the last 10 lines Output the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the last 10 lines Output the last 10 lines Output the last 10 lines				
10. head file 11. tail file 12. tail -f file 13. touch file 14. rm file 15. rm -r dir 16. rm -f file 17. rm -rf dir 18. cp file1 file2 19. cp -r dir1 dir2 Output the first 10 lines of the file Output the contents of file as it grows, start the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the last 10 lines of the file Output the last 10 lines Output the last 10 l				
11. tail file 12. tail -f file 13. touch file 14. rm file 15. rm -r dir 16. rm -f file 17. rm -rf dir 18. cp file1 file2 19. cp -r dir1 dir2 Output the last 10 lines of the file Output the contents of file as it grows, start the last 10 lines Output the contents of file as it grows, start the last 10 lines Output the last 10 lines of the file as it grows, start the last 10 lines Output the last 10 lines of the file as it grows, start the last 10 lines of file as it grows, start the last 10 lines of file as it grows, start the last 10 lines of file as it grows, start the last 10 lines of file as it grows, start the last 10 lines of file as it grows, start the last 10 lines of file as it grows, start the last 10 lines of file as it grows, start the last 10 lines of file as it grows, start the last 10 lines of file as it grows, start the last 10 lines of the file as it grows, start the last 10 lines of the file as it grows, start the last 10 lines of file as it grows, start the last 10				
12. tail -f file Output the contents of file as it grows, start the last 10 lines 13. touch file Create or update file Deleting the file Deleting the directory 16. rm -r dir Deleting the directory Force to remove the file 17. rm -rf dir Copy the contents of file1 to file2 19. cp -r dir1 dir2 Copy dir1 to dir2; create dir2 if not present				
the last 10 lines 13. touch file Create or update file 14. rm file Deleting the file 15. rm -r dir Deleting the directory 16. rm -f file Force to remove the file 17. rm -rf dir Copy the contents of file1 to file2 19. cp -r dir1 dir2 Copy dir1 to dir2; create dir2 if not present				
14. rm file Deleting the file 15. rm -r dir Deleting the directory 16. rm -f file Force to remove the file 17. rm -rf dir Force to remove the directory dir Copy the contents of file1 to file2 19. cp -r dir1 dir2 Copy dir1 to dir2; create dir2 if not present	ing with			
15. rm -r dir Deleting the directory 16. rm -f file Force to remove the file 17. rm -rf dir Force to remove the directory dir 18. cp file1 file2 Copy the contents of file1 to file2 19. cp -r dir1 dir2 Copy dir1 to dir2; create dir2 if not present				
16. rm -f file 17. rm -rf dir 18. cp file1 file2 19. cp -r dir1 dir2 Force to remove the directory dir Copy the contents of file1 to file2 Copy dir1 to dir2; create dir2 if not present				
 17. rm -rf dir 18. cp file1 file2 19. cp -r dir1 dir2 Force to remove the directory dir Copy the contents of file1 to file2 Copy dir1 to dir2;create dir2 if not present 				
18. cp file1 file2 Copy the contents of file1 to file2 19. cp -r dir1 dir2 Copy dir1 to dir2;create dir2 if not present				
19. cp -r dir1 dir2 Copy dir1 to dir2;create dir2 if not present				
20				
20. mv file1 file2 Rename or move file1 to file2,if file2 is an edirectory	existing			
21. In -s file link				
Process management				
1. ps To display the currently working processes				
2. top Display all running process				

3.	kill pid	Kill the process with given pid			
4.	killall proc	Kill all the process named proc			
5.	pkill pattern	Will kill all processes matching the pattern			
6.	bg	List stopped or background jobs,resume a stopped job in the background			
7.	fg	Brings the most recent job to foreground			
8.	fg n	Brings job n to the foreground			
File permission					
1.	chmod octal file	Change the permission of file to octal,which can be found separately for user,group,world by adding, • 4-read(r) • 2-write(w) • 1-execute(x)			
Searching					
1.	grep pattern file	Search for pattern in file			
2.	grep -r pattern dir	Search recursively for pattern in dir			
3.	command grep pattern	Search pattern in the output of a command			
4.	locate file	Find all instances of file			
5.	findname filename	Searches in the current directory (represented by a period) and below it, for files and directories with names starting with filename			
6.	pgrep pattern	Searches for all the named processes , that matches with the pattern and, by default, returns their ID			
System Info					
1.	date	Show the current date and time			
2.	cal	Show this month's calender			
3.	uptime	Show current uptime			
4.	w	Display who is on line			
5.	whoami	Who you are logged in as			

6.	finger user	Display information about user		
7.	uname -a	Show kernel information		
8.	cat /proc/cpuinfo	Cpu information		
9.	cat proc/meminfo	Memory information		
10.	man command	Show the manual for command		
11.	df	Show the disk usage		
12.	du	Show directory space usage		
13.	free	Show memory and swap usage		
14.	whereis app	Show possible locations of app		
15.	which app	Show which applications will be run by default		
Compression				
1.	tar cf file.tar file	Create tar named file.tar containing file		
2.	tar xf file.tar	Extract the files from file.tar		
3.	tar czf file.tar.gz files	Create a tar with Gzip compression		
4.	tar xzf file.tar.gz	Extract a tar using Gzip		
5.	tar cjf file.tar.bz2	Create tar with Bzip2 compression		
6.	tar xjf file.tar.bz2	Extract a tar using Bzip2		
7.	gzip file	Compresses file and renames it to file.gz		
8.	gzip -d file.gz	Decompresses file.gz back to file		
Network				
1.	ping host	Ping host and output results		
2.	whois domain	Get whois information for domains		
3.	dig domain	Get DNS information for domain		
4.	dig -x host	Reverse lookup host		
5.	wget file	Download file		
6.	wget -c file	Continue a stopped download		

Shortcuts				
1.	ctrl+c	Halts the current command		
2.	ctrl+z	Stops the current command, resume with fg in the foreground or bg in the background		
3.	ctrl+d	Logout the current session, similar to exit		
4.	ctrl+w	Erases one word in the current line		
5.	ctrl+u	Erases the whole line		
6.	ctrl+r	Type to bring up a recent command		
7.	!!	Repeats the last command		
8.	exit	Logout the current session
